

**Instructions.** Solving a symbol sudoku is the same as solving a regular sudoku: Every row, every column, and every 3x3 square must contain one each of the symbols shown for that puzzle, and no symbol may be repeated in any column, any row, or any 3x3\* square. In other words all symbols for that puzzle must be used once in every row, column, and 3x3\* square. \*3x3 is for 9 numbers only. More numbers or number/letters will have larger squares.
